# taste the unexpected

## Company and product information

Eating candy, but worrying about... all the strange stuff that's inside? Long lists with all kinds of weird ingredients? Wouldn't it be great to enjoy candy, without any feelings of guilt or doubt? Druppas offers you the solution:

**'no junk' fruit candy!**

Druppas is a new, highly innovative company, specialized in quality confectionery, established by entrepreneurs who have more than 40 years of experience in the industry. They got so fed up with all the artificial stuff in the market, that they decided to change course and offer something really different!

Now, using new recipes and only high-quality ingredients, Druppas is proud to present you honest, and tasty candy, free from allergens, without any 'junk'!

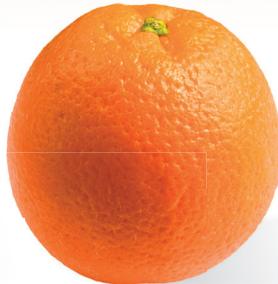

Our latest innovation is a high-fruit content candy, with the texture of a soft wine gum and the real taste of fruit. Its intense fruit flavour is solely derived from its fruit ingredients.

grapes

Grapes are true delights.  
Each grape is like a drop  
of delight in your mouth.  
We hope that our grape candy  
will have the same effect....

orange

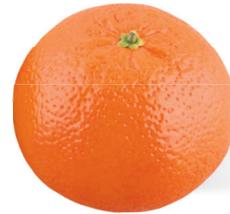

The orange is world-famous  
because of the many types  
of jus d' oranges (orange  
juices). Now add one more  
type to it: our orange candy!

strawberry

A strawberry is love fruit,  
often used in romantic  
settings. Surprise your lover  
by offering him or her our  
strawberry candies...

mandarin

The mandarin is also called  
the small orange. Enjoy each  
small part, without getting  
sticky hands. Try and enjoy our  
mandarin candy in the same way!

**the fruitiest candy ever!**
